

HAMB Systems Limited is an Australian owned organisation specialising in the development and support of software for the Private Health Insurance Industry. Due to the continued growth of our product we are now seeking to fill the following positions:

Customer Support Consultant – Quality Assurance

A fantastic opportunity exists to join our expanding Quality Assurance team. To be successful in this role you will have experience in test planning, writing design specifications and reporting, ability to find software defects in an application and to work closely with developers.

Whilst experience within the health insurance industry is not essential, ideally, the successful candidate will have worked for a minimum of two years in an equivalent support role with testing /quality assurance experience. The successful candidate should display the ability to work effectively both autonomously and within a team.

Customer Support Consultant – Service Desk

In this role you will be required to handle incoming requests for support from our clients who are located across Australia. Your ability to multitask and work well under pressure will be keys to your success.

Whilst experience within the health insurance industry is not essential, ideally, the successful candidate will have worked for a minimum of two years in an equivalent support role with software/applications support experience. The successful candidate should display the ability to work effectively both autonomously and within a team.

Excellent communication skills, both written and verbal, and the ability to liaise with clients on all levels are essential for success in both of these positions. Some interstate travel will be required in both roles.

This is a fabulous opportunity to join our organisation at a time of growth. Send your application as soon as possible to hsl.admin@hamb.com.au or by mail to;
